

## Basic Assessment and Support in Intensive Care (BASIC™)

Saturday & Sunday, January 19 - 20, 2019

SKMCH & RC, Lahore

The BASIC™ is a 2 day course which covers essential and fundamental aspects of intensive Care.

It is primarily designed as an introduction to intensive care for doctors coming to work in the ICU for the first time. It is also for senior ICU nurses, respiratory technicians, emergency department doctors and doctors who have responsibility for severely ill patients.

The course consists of course manual, lectures, skill stations, e-learning, pre- and post-course tests. The course works on a cascading model with local instructors delivering the content after appropriate training. The course has been endorsed by the Asia-Pacific Association of Critical Care Medicine and College of Intensive Care Medicine of Australia & New Zealand

The hands-on course will be run by Consultant Anaesthetists and Intensivists who are approved BASIC™ instructors.
