

Certified Healthcare Quality Professional (CHQP)

Shaukat Khanum
Memorial Cancer Hospital
and Research Centre

**Four Months Weekend Based Professional Diploma Program
In Shaa Allah starting from Mar 07, 2020 at Lahore**

in collaboration with
Shaukat Khanum Memorial Cancer Hospital

Introduction

Healthcare services today are scrutinized, measured, evaluated and publicized as never before. An increasingly educated public expects to receive nothing less than excellent care and services and it must be the mission of every healthcare organization to deliver that excellence. Quality improvement is the process of continually evaluating existing processes of care and developing new standards of practices and therefore has to be a core competency for every healthcare professional. This course is designed to enhance the competency of healthcare professionals in QM practices. This course will help in their career growth and facilitate the quality transformation in their hospitals or healthcare organizations. The Body of Knowledge used for this course will lead towards the preparation of "Certified Professional in Healthcare Quality (CPHQ) of USA".

Learning Outcomes

- Upon successful completion of this professional diploma and certification, participants will be able to:
- Understand healthcare gaps in the country and inefficiencies in resource-poor settings
- Identify acceptable knowledge of the principles and practices of Healthcare Quality Management in healthcare related facilities
- Create the ability to manage Quality Assurance and Accreditation frameworks in local hospitals
- Foster continuing competence and maintain the professional standard in healthcare quality

Useful for

Medical Practitioners, Medical Superintendents, Graduate Nurses, Radiologists and Administration Management Personnel
